But it was a concern about adding the number of students in same centres in future. • We discussed about the incentive where by some teachers agreed the incentive to be send through m-pesa and others to take cash from the accountant or savio club supervisor’s office. • The teachers appreciated much about the playing materials that were supplied to them. The material are well used in all centres and shared accordingly. i.e. like for football we have two teams, for girls and boys. And For skipping rope it’s mostly used by girls where by their teachers divide them into two group. The first group plays while the points are being recorded down then the second group plays and the marks are recorded. Later on the points for the two groups are compared and the winner is announced. • We agreed with teachers the story books will start to be in use as from second term. Because first term it’s normally for teaching the students how to write and read.
