

10th March, 2025

Dear members of Kakuma-Help Association,

Greetings from Don Bosco Kakuma.

Kakuma literally means a place in 'nowhere'. Currently nearly 300,000 people stay in the desert - 'nowhere', away from their countries, their dear ones, and their familiar cultures. It is indeed a sad reality. In addition, majority of them are young children who should be nurturing their dreams and playing around, but are held up in the limited facilities of the refugee camp.

We have been able to bring smiles to the faces of thousands of these little ones through your courageous and generous support that arrive us through Dr. Alfons. The joy and gratitude of these children are witnessed by Dr. Alfons during his annual visits to the camp.

The activities we have been carrying out without interruption for last ten years through your support have had enormous impact on the lives and character formation of these children. The parents of these children are consoled when their get an opportunity to join the Savio club for two year. They are sure, that will form the lives of their children.

As you are completing this great milestone of ten years of commitment and service, we acknowledge our gratitude and appreciation for your generosity and concern for the less privileged. Be assured of our prayers and the blessings from the little ones.

Thanking you once again,

Fr. Mathew Job
Director
Don Bosco Kakuma
